

May 12, 2018

Dear Colleagues

Welcome to the ninth Victoria based **British Columbia Digestive Diseases Weekend Conference (BCDDW)**.

This event has been hosted and organized by the Vancouver Island Gastrointestinal Group (VIGI). The VIGI group working in collaboration with our scientific committee has brought together an excellent group of speakers to present on these very timely and applicable topics.

Please share your thoughts about this conference on the evaluation form provided. It is through your feedback that we can continue to address the learning needs of the medical community.

I hope you enjoy what should prove to be an informative day.

Sincerely

Dr. Andrew Singh, MD, FRCP(C)  
Conference Coordinator and Chair
